- Jackson
- Logback и др.

### Language:

- Russian (native)
- English (B2)
- Polish (certificate B1)

## EXPERIENCE

### Java BSU internship

2023

[https://github.com/javagurulv/bsu-java-internship-2023/tree/main/student\\_kroshinsky\\_eugene](https://github.com/javagurulv/bsu-java-internship-2023/tree/main/student_kroshinsky_eugene)

Participated in the creation of the Insurance Calculator application. The project was carried out step by step under the guidance of an experienced mentor and in a team with other students. The following technologies were used in the project: Spring Boot, Hibernate, MySQL, Mockito, JUnit, Lombok, Jackson, Logback. The database on the project is MySQL, for testing - H2 database

### Own pet-project on the Xamarin Forms platform

2023

<https://github.com/EugeneKroshinsky/MasterMoney>

I participate in tournaments where prize money is provided according to a certain difficult-to-calculate system, so I developed a mobile app to calculate the money won and enter the result into a database. The application is written in C# on the Xamarin Forms platform. SQLite was used as the database. Markup language - XML

### Epam course

2023

1st year university internship took place on the Epam training.by portal. The practical part of the course on the C# language was completed, as well as a practical course on the GIT version control system.
